Dear Ms. Sandberg,

It is the desire of Riedel Environmental Services, Inc. to amend our U.S.E.P.A. Hazardous Waste Transporters Permit to include dioxin contaminated wastes. Our current permit number is MOD000687418 and our Missouri Transporter number is H-1070.

We are currently working at the Quail Run and Sullins dioxin sites in southeast Missouri for Region VII under the E.R.C.S. contract. Since it is possible we will need to transport some of this material in the near future, we wish to complete all the necessary paperwork as soon as possible. Any assistance you provide in this matter will be greatly appreciated.

Sincerely,

Paul K. Travous  
Hazardous Materials Coordinator
